FOR GRANITE MATERIAL of every description, apply to WILLIAM SIM, INVERARY, N.B.

BATH STONE OF BEST QUALITY.

RANDELL and SAUNDERS, QUARRYMEN and STONE MERCHANTS, BATH.

List of prices at the quarries, also cost for transit to any part of the kingdom, furnished on application.

MARKET WHARF, REGENT'S-PARK BASIN, — MARTIN and WOOD solicit the attention of Builders, Masons, and others, to their stock of Portland, York, and Yorkshire Stones; also Bangor Slates, Lime, Cement, Plaster, Bricks, Tiles, Laths, Fire-goods, Fire-stone, &c., sold at the lowest possible prices for Cash. Portland Head stones, Ledgers, Stone Landings, &c., cut to order on the shortest notice. Turning-lathe to let on hire. A Stock of Northern Drain Pipes, Syphons, &c., always on hand. Mortar, Lime and Hair. Fine Sand, &c. Prompt attention paid to country orders.

BATH STONE.—RANDELL and SAUNDERS, Quarrymen, Bath, have appointed MARTIN and WOOD their sole agents in London. M. and W. beg to inform Architects, Masons, Builders, &c., that a large assortment of the much approved CORSHAM DOWN and other BATH STONE will always be kept at the Depot, opposite the Great Western Railway Station, Paddington. Orders will also be received at Market Wharf, Regent's-park Basin.

JOHN DANIEL and SON, Quarrymen and Stone Merchants, Leeds, and at 14, South-wharf, Paddington.—York Paving Landings, Copings, Sinks, Steps, Cills, Hare Hill and Robin Hood Blocks, &c., at unprecedented low prices, for cash; at the new Stone Wharf, 16, South Wharf, Paddington, near the Great Western Railway Station.

*** Bramley Fall and Hare Hill Blocks, to any dimensions.

DARLEY DALE, STANCLIFFE QUARRIES near MATLOCK, DERBYSHIRE.—These celebrated Quarries having completed the supply of Stone for the erecting of St. George's Hall, Liverpool, orders for blocks equal in dimensions and quality to any in that edifice can now be executed, with every facility for conveyance and despatch, the Manchester, Buxton, and Midland Junction Railway passing through Darley Dale, close to the Quarries.

GEORGE WALL, Manager.

BRAMLEY FALL STONE. — Railway contractors, stone merchants and others are respectfully informed that the above stone can now be supplied very extensively. A large and well selected stock of Bramley Fall Stone now on the depôt: it works with great facility, and is worthy the attentions of all parties requiring or using such stone. Orders shipped direct to all parts. For prices, &c. apply to Mr GEORGE CLARK, General Stone Agent, Dewsbury; Haynor Wharf, Rotherhithe, London.—Nov 26, 1850

CAEN STONE, SELECTED FOR EXTERNAL WORKS.—LUARD, BEEDHAM and Co., Quarry Proprietors and Importers from Allemagne.

AUBIGNY STONE from the Quarries, near Falaise, Calvados Department.—Subject in all similar colour to Portland Stone, its texture finer, price and labour of working about the same.

RANVILLE STONE from Ranville Quarries, near Caen, Normandy.—Suitable for strong Portico, Church and quay building, price and labour similar to Caen Stone.—Depôt, Caen Stone Wharf, Rotherhithe.—Information and samples supplied from the Office, 15, South-park-square, Borough.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS, planed both faces, will be sent on application (post paid) before made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

THE PIMLICO SLATE WORKS.—Patronised by Royalty, the Heads of the Nobility, the Clergy, Architects of Eminence, Builders, Railway Contractors, and the Public generally.—MAGNUS'S ENAMELLED SLATE notwithstanding the vile limitations and infringements of his patent that are attempted continue to grow in favour with the public, being handsomer, more durable, and very much cheaper than marble.—Price lists sent to any part of the kingdom gratis, and a book of drawings sent postage free on receipt of 2s. in postage stamps. Cisterns, Filters, Dairy and Larder Shelves, Wine Cellar Fittings, Slabs, and every variety of plain Slate Work, at prices that defy competition.—6 and 8, Upper Belgrave-place.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Belgrave Wharf, Pimlico.

GOTHIC WINDOWS, ALTAR SCREENS, and other Works produced at a remarkably cheap rate.

FONTS from 3l. upwards. Specimens on view of the Early English, Decorated, and Perpendicular styles.

ALTAR TABLETS Illuminated.

First-rate ARTISTS retained for SCULPTURED GOTHIC CARVINGS.

MEMORIAL CROSSES, MONUMENTS, TOMBS, HEADSTONES, &c., in great variety of design. Letters cut and composition for fixing in the country.

The Public are respectfully invited to view the carefully selected and manufactured stock (by improved machinery) of Veined Marble Chimney-pieces—cheap and good.

DAIRIES fitted up with MARBLE or SLATE SHELVES.—MINTON'S Encaustic and White or Blue and White Porcelain Tiles in great variety of pattern.

A GOOD MARBLE CHIMNEY-PIECE FOR FORTY SHILLINGS.

A liberal discount to the trade.

TO BUILDERS, MASONS, AND CONTRACTORS.

OBSERVE! the CHEAPEST DEPOT in England for MARBLE CHIMNEY PIECES, &c. of superior quality is that of WESTMINSTER MARBLE COMPANY'S PATENT WORKS, Earl-street, Holywell-street, Millbank.—Country orders attended to, and a large assortment always in stock.

TO MASONS.

REDUCED PRICE of MARBLE SLAB. —The LONDON MARBLE and STONE WORKING COMPANY continue to sell Slab, of superior quality and well seen, at their Manufactory, ESHER-STREET, near Millbank, Westminster, at the following reduced prices, viz.:—

1 inch, at 1s 3d per foot.
1 inch, at 1s 6d "

WHITE AND ORNAMENTAL — BROWN LAVA

PATENT METALLIC LAVA, Manufactured only by Messrs. ORSI and ARBANI.

For the INTERIOR of CHURCHES, MUSEUMS, HALLS, VESTIBULES, CONSERVATORIES, &c. &c.; for Fire-proof Pavement, Flooring, Covering Railway Arches, Terraces, Roofs, &c. &c.

SAMPLES LAY FOR INSPECTION, Lists of Prices, and every particular, may be obtained at the Office, 4, Southampton Chambers, Bloomsbury-square, City; and at the Office of "The Builder."

SEWERAGE of LONDON.—The attention of the COMMISSIONERS appeared to determine upon the most efficient material for the construction of the Sewers of London is particularly directed to the ASPHALTE of SEYSSEL, which, more than any other material, is applicable to the construction and internal coating of Brick Culverts, and other channels for drainage. The experiments made by the Royal Artillery on the Embankment of Plymouth Citadel, constructed of Seyssel Asphaltic Brick-work, under the orders of the Honourable Board of Ordnance have fully proved the superiority, adhesiveness, and strength of Seyssel Asphaltic over all other cementitious compositions. A printed account of these experiments can be had on application to J. FARRELL, Secretary, Seyssel Asphaltic Company, Claridge's Patent." Established 1838.

Note.—The application of the Asphaltic of Seyssel is specially recommended by the Commissioners on the Fine Arts, for covering the ground line of brick-work in marshy situations, and it has been suggested that it would be peculiarly applicable for covering the Areas of closed Graveyards, and for the construction of Catacombs.

TAYLOR and CO.'s "EUSTON" PAVEMENT.—The durability and safety of this Pavement for Streets is generally admitted, and the ornamental character imparted by the arrangement of the small stones particularly adapts it for carriage-drives, court-yards, stabling, &c. Specimens may be seen at the Gateways of Hyde Park Corner, Albert Gate and Stanhope Gate, and also at the Euston Station of the London and North-Western Railway.—Temporary Offices, 1, Chapel-place, Duke-street, Westminster.

PAVING, 2s. 9d. PER SQUARE YARD. Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN PILKINGTON, BITUMINOUS BITUMEN PAVEMENT OFFICE, 14, JOHN-STREET, ADELPHI.—N.B. Coventry Arcade and Railway Engineers and Contractors supplied with the best bitumen for cement or bitumen and cement.

PAVING 4½d. per foot; Thick do. 6d.; Large 9-inch, 4½d.—SINKS 1s. 9d.—COPING 4½d.—Robin Hood Slab 4d. per foot; Duchess, Countess, and Ladies' Slates at reduced prices. Drain-pipes with a liberal discount. Pantiles 3s. 9d. per ton. Chimney-pots 16d., 1s. 3d., and 2s. each.

E. & W. STURGE, REDINGE WHARF, CITY ROAD.

IMPORTANT TO OIL AND RAILWAY GREASE MERCHANTS AND FACTORS.

FOR SALE, at the Works at Weymouth, or may be delivered to any part of the kingdom, the superior product by distillation of BITUMINOUS SCHALE, or ICHTHIUS "LIQUID BITUMEN," containing, 1st, a Volatile Oil, or Mineral Spirit; 2nd, an Oil of a greater density; 3rd, a Fatty Mineral Oil; 4th, Paraffine; 5th Grease, slightly Alkaline; 6th, Tar. The Volatile Oil, or Mineral Spirit, is admirably adapted as a solvent for all purposes to which the most highly rectified spirit of turpentine is employed, or may be used for spirit and camphine lamps. The second oil, not so very volatile, will dissolve in any proportion with seed or fish oils, of which it considerably augments their illuminating power, and prevents their becoming rancid. The third is admirably adapted for lubricating machinery, and contains the 4th, Paraffine, which is easily obtained by crystallisation, and requiring but little treatment to make excellent candles. The 5th, Grease, superior to animal oil or fat for the use of carriages. The 6th, Tar, perfectly black, very adhesive, and which may be used generally for all purposes of varnish, and where mineral tar is employed.—Any further information may be obtained either of Mr. W. C. HOMERSHAM, Schist Works, Weymouth; or of Mr C. F. CUFFFINS, 11, Southampton-buildings, Chancery-lane, London.

MINTON and CO.'S ENCAUSTIC and other PATENT TILES for Churches, Entrance Halls, Conservatories, Balconies, &c., Antique, Geometrical, and Alhambric Mosaics, manufactures of a highly decorative character and extreme durability, Slabs and Tiles for Fireplaces and Hearths, Coverings for Grates, Door Furniture, White Glazed and Ornamental Tiles for Baths, Dairies, and Kitchen Ranges may be had in great variety at their Warehouses, 2, Albion-place, Blackfriars-bridge, London, and at their Manufactory, Stoke-upon-Trent, Staffordshire.

BRICKS.—In consequence of the low price at which Brickmakers have, for some time past, been purchasing Ashes and Breeze, H. DODD is enabled to offer his bricks, which are of good quality, to the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves.

Malm Cutters	30s.	per thousand.
Yellow Seconds	25s.	6d. "
Pale Seconds	20s.	"
Paviors	40s.	"
Phiztors	20s.	"

Malm Place, Half-vitrified Clinkers, and Place Bricks, at equally low prices. These bricks are colored, well burnt, and unusually free from defects; a very large proportion of the stocks being suitable for external facings. They will be delivered at the above prices anywhere within ten miles of the fields.

Apply to HENRY DODD and Co., at the Counting-house, Horton Brickfields, Orange-walk, near the Rosemary Branch, Hoxton.

N.B. Red Pit Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand from its not containing any saline matter, is acknowledged to be preferable to river sand.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c., 42, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Centre Flowers, Balusters, Trusses, &c.; Elizabethan and other Chimney Shafts.

GREAVES'S BLUE LIAS LIME, LIAS PORTLAND, and IMPROVED ROMAN CEMENTS; also, Warwickshire Lawn FLAGGING STONE. Southam and Stratford-on-Avon, Warwickshire.—Offices, Warwick.

AGENTS

Messrs. Freeman and Richardson,	4, South-wharf, Paddington.
Messrs. W. and T. S. Gladdish	Peast-wharf, Camden-town.
Messrs. Wilson & Knight	Beach Mills, Manchester.
Mr. Thomas Wylie	College-lane, Liverpool.
Mr. James Harrison	Linen-hall street, Chester.
Mr. J. W. Robinson	6, Hasinah-street, Leeds.
Mr. T. E. Mercer	108, Fargate, Sheffield.
Mr. Edsel Cowe	Canal-wharf, Oxford.
Messrs. Bennett and Son	Worcester wharf, Birmingham.
Messrs. T. and W. Lewis	Merchants, Belfast.

N.B.—As the above works join the Stratford and Warwick Canal, the proprietor can deliver by his own boats to any part of the kingdom.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for indoor flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brick-work, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior connecting power, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and embankment walls, the linings of reservoirs, cisterns, and baths, and for all these purposes where strength and a perfect resistance to water are required.

Manufactories—J. B. WHITE and SONS, Millbank-street, Westminster, and 34, Rood-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to No. 236, page 491; and also Nos. 240 and 241, pages 543 and 551 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystalise, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Wapping-wharf, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 61, Hanover-street, Liverpool.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4 Porchester-terrace North, Paddington, 13th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from, whence I date was first inhabited by me on 7th September last, and a brick having been laid before the 1st of June!—that is to say, in three months and one week! I stopped the walls throughout with Parian; papered some, painted and varnished others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

W. M. SCANTLEBURY.

Messrs. Chas. Francis and Sons, Nine Elms.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is solicited to these very excellent and well-known materials, which, for their beauty, durability, imperviousness, and cheapness are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water-colour, is an article which has long been wanting for stucco and brick-work; it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very much cheaper than the common lime-wash; and, being a non-absorbent, is admirably adapted for railway stations, union workhouses, schools, barracks, prisons, &c. One cwt. is sufficient to cover, with two coats, 250 square yards. THE CEMENT, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or repeatedly; soon becomes as hard as stone; and may be cleansed with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARE, at the Warehouse, 33, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

MARTIN'S PATENT FIRE-PROOF AND ORNAMENTAL CEMENT, APPLICABLE FOR ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON however feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 10½ per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 10 per cent., by its allowing about forty minutes for working, being less than one-tenth of the time of other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt. Specimens showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 151, Drury-lane, London.—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

BELL'S PATENT LIQUID CEMENT.—Ready for use, on the front of houses, only one-eighth the cost of oil paint; for beauty it is pre-eminent, giving the appearance of fine cut stone. In casks of 1, 2, and 3 cwt., at 8s., 16s., and 24s. each.

PATENT MINERAL PAINT, invaluable for cheapness, beauty, and permanence. Ready for use. Will stand any climate, and well calculated for exportation.

NEW ELASTIC PAINT for DAMP WALLS; an effectual remedy, inside or out. Will dry in a few hours, and may be papered over at once. If desired.—G. BELL and Co., Steam Mills, 2, Wellington-street, Goswell-street.

PATENT WHITE ZINC PAINT.—JOHN WARNER and SONS are prepared to supply this paint to builders, painters, and plumbers, on wholesale terms. It is free from all poisonous qualities, it is unaffected by sea-water, sulphuretted hydrogen, or any of the gases; and preserves its original colour where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 8, Crescent, Jewin-st., London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and retains this whiteness for years, unaffected by bilge-water, or noxious vapours from cargo. The White Paint in the hold of a ship, after discharging a sugar cargo, is found to be as white as the year before, when newly painted. Under these and other circumstances, when every other paint hitherto known and tried has failed, the "White Zinc Paint" has preserved the fastness of its colour. Moreover, by virtue of its galvanic action on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, or incrustation.

For the GENERAL PURPOSES of the decorative painter, the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It becomes so hard as to admit of polishing equal to the finest coach panelling.

For SANITARY PURPOSES the "White Zinc Paint" is valuable, not only from its being totally free from every impression injurious to health, but from its combining chemical qualities which render it a powerful corrective where contagious diseases have prevailed; furniture or buildings painted with it are at once disinfected. Hospitals and Painters' Studios are avoided by persons as well as similar results to the evaporation of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitution. It becomes cheaper than common paint, from its spreading over a much larger surface. 1 cwt. of this paint covers as much as is usually covered by 2 cwt. of white lead. Each cask is stamped with the name "Hubbuck—London—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour-Works, opposite the London Docks.

PATENT VULCANIZED INDIA-RUBBER TUBING, for Gas Fittings, Chemical Purposes, Fire Engines, Manure Pumps, &c.—JAMES LINE HANCOCK, Sole Manufacturer (and Licensee, Goswell-mews, Goswell-road, London), begs to invite the attention of Architects, Builders, Engineers, and the trade generally, to the Vulcanized India-Rubber Tubing, which is now manufactured from 1-inch bore and upwards, in lengths from 50 to 100 feet, and of various strengths, suitable to the purposes for which it is applied. VULCANIZED HOSE for FIRE ENGINES, LIQUID MANURE, and for conveying HOT WATER in BATHS in DWELLING-HOUSES and BREWERIES, manufactured to resist great pressures of any length and size to order.

*** Testimonials may be had on application to the Manufactory.

N.B. VULCANIZED WASHERS and SHEET RUBBER for Steam and Hot Water Pipes, and Packings for Pistons and Glands of Steam Engines, cut any size to order.

NEW SHOW-ROOMS for BEDSTEADS. —HEAL and SON have erected some extensive Warerooms, for the purpose of keeping every description of Bed-stead in their stock, will include every sort manufactured, from the cheap Stump, for servants' use, to the handsomest ornamented tubular-pillared Canopy, as well as Brass Bed-steads of every shape and pattern; and in Wooden Bedsteads their rooms are sufficiently extensive to allow them to fit up a variety, both in Polished Birch and Mahogany, of Four-post, Canopy, and French, and also of Japanned Bedsteads—in fact, to keep in stock every sort of Bedstead that is made; they have also a general assortment of Furniture, Chintzes, Damasks, and Dimities, so as to render their stock complete for the Furnishing of Bedsteads as well as Bedding. Without attempting to compete with the prices at which the lowest class of furniture is sold, and which is fit for no useful purpose, their new stock will be found to be priced on the same principle by which their Bedding Trade has, during the last thirty years, been so successfully extended, and the goods, whether of a plain and simple pattern, or of a handsomer and more expensive character, are of well-approved materials, sound workmanship, and warranted.

HEAL and SON'S LIST of BEDDING, containing full particulars of Weights, Sizes, and Prices of every description of Bedding, sent free by post, on application to their Factory, 196 (opposite the church), Tottenham Court-road, London.
